## Summer Already?!?

We're half-way through Spring and Summer is right around the corner. People will begin to take vacations, daycations, and general abdications. Many people will prefer to "worship" in the sun. How do you keep the giving and donations up when attendance isn't? By having Online Giving capabilities on your web site, of course! How do you keep people up to date when they aren't there and make sure they don't miss things? Keep them informed through your web site, either by posting information for them to read about, putting it on your calendar, or even better: Premium customers can use the mailing list module to allow them to subscribe to updates sent right to their inbox so they don't miss a thing!

## New/Updated Features

- Photos in the photo gallery can now be moved to a different album without deleting and uploading all over again.
- New Style—"Tile" features a scenic look with a rich elegant treatment that can really communicate your "flavor." Currently in three variants: forest, beach, and mountain, more will come soon.

## Tip of the Month

Weekly Bulletin/Sermon Notes sub-modules

The Weekly Bulletin and Sermon Notes sub-modules both consist of the Heading and some descriptive text and/or an image that links to the appropriate document. While these are typically used to upload sermon notes or to put your weekly bulletin on the web site, they can be used with any document you wish. Just make the header something appropriate ("New Construction Plans" e.g.) and upload the corresponding document. This is especially helpful for Basic subscriptions that don't have menu pages on which to put lots of stuff!

## Spotlight Site

Excell Ministries International  
[www.excellministriesintl.org](http://www.excellministriesintl.org)

**Strengths:** Coordinated graphics, logical layout, easy to find information

## New and Improved Churchonline.net! Now with greater performance!

We have recently completed migrating the technology behind churchonline.net to something newer and better. Think of it as upgrading from a carburetor to fuel injection. Even though it all looks the same on the outside, it is considerably better-performing under the hood. Within a few weeks your User Admin pages will have a whole new look, so don't be alarmed; they will still work the same way—just better!

We thank those of you that have been patient with us during this process. For the most part, it has gone very smoothly. Even though we are now faster, more efficient, and more reliable, we will continue to add improvements and upgrades to make things even better. Please continue to contribute your ideas and suggestions!

## Your church could make \$1440 in an hour!

It sounds unbelievable, but you can, just by taking advantage of Churchonline.net's referral bonus. If you spent 10 minutes referring each of six friends or pastors to churchonline.net, and each of those six signed up for our premium package and stayed with us for 6 months, you would get a check for \$1440! For ONE HOUR'S WORK! Believe it or not, it's that simple!

For every church that signs up with Churchonline.net and mentions that you referred them, you will receive a check for 3 months worth of whatever package they choose, once they've paid for six months. This means that if they choose the premium package at \$80/month, you will get  $3 \times 80 = \$240$ . For each church that signs up!

You do it when you see a good movie. You do it when you have a great experience at a restaurant. You even tell friends when you find a good deal at the store. Why not tell them what a great web site they can get from Churchonline.net? If your friends go see that movie, you won't get paid. If they eat at that restaurant, you won't get paid. If they buy those jeans... nope. But mention Churchonline.net and it's money in the bank!

**BILLING REMINDER**—Our invoices are sent by email to the address of record that you have provided. If you change email addresses or contact info, make sure to let us know. If you do not get the invoice because it was emailed to the wrong place, you may risk service interruption. If you suspect you may have missed an invoice, please call us right away!
